

# **STRAIGHT AND LEVEL**

**Newsletter of the Keystone Chapter of the 99s**  
**January 2010**

## **2009 Christmas Party**

This year Susannah hosted our annual party in her old stone farmhouse, which was beautifully decorated for the holidays. Everyone brought homemade goodies to make the meal, which included ham, roast beef, stuffed shells and many delicious hors d'oeuvres and desserts. Nine members attended, plus guest Linda Berry, whom we met at our October meeting. We've had a terrific year-end party for many years, and the tradition continues.

## **Udvar-Hazy Bus Trip**

The Doylestown Pilots Association is sponsoring a bus trip to the Udvar-Hazy Air & Space Museum at Dulles on Saturday, Feb. 20. The bus leaves from Doylestown at 7:30AM and returns at 9PM. \$35 includes transportation, morning coffee and snacks. The bus will stop for dinner on the way home (cost on your own). If you haven't visited the newest National Air & Space museum, don't miss this opportunity to enjoy it with fellow 99s and other pilots. Email [bustrip@dylpilot.org](mailto:bustrip@dylpilot.org) for more details and to sign up.

Sally Moritz, editor

## **Next Meeting** **Wednesday, Jan. 20** **7:00PM @ ABE Hangar 7**

**600 Hayden Circle, Allentown, PA**

Come meet the newest member of our chapter. She is also a scholarship candidate applying for financial assistance toward a commercial license. So, the first item on the agenda will be asking her about her goals and how she hopes to achieve them.

We'll also continue work on the Flying Companion social (see article below).

## **"Flying Companion" Planning**

Jen, Nancy, Diana, Toni and Sally met on January 12 to work on the program for our reception for family members and partners of pilots. We started on a Powerpoint presentation that would serve as a short introduction. The introduction covers who we are and why we fly. We hope it will spark individual conversations and plant the idea that not only are we having fun, flying is fun and attainable for other women, too.

Sally will email the Poweppoint so that others can add to it. Still to be completed are: location, date (March?) and invitations.

## **TMX Engine Workshop**

Susannah passed on information about a free workshop at Mattituck Airport (21N) on Long Island on March 13. The all-day workshop includes hands-on assembly of a 4-cylinder TMX O-360 engine. Susannah attended last year's workshop and says it was excellent. If you're interested in going, contact Susannah at [susannahcook@gmail.com](mailto:susannahcook@gmail.com).
